

The Music of Your Soul™

"The Music of Your Soul CD that you made for us changed our lives. Thank you!"
Pierre & Danièle P., CA

A year after my first life-altering Near Death Experience, I received the gift to compose the 'Music of Your Soul,' however, I was afraid of the power of this gift and tried to refuse it until a medical error at age 30 temporarily paralyzed me. At that very moment, I had so much clarity on why this happened to me: I had been running away from my path, living in fear instead of inner peace with total acceptance of who I am, therefore Divine intervention occurred as a blessing in disguise to help me surrender and to commit to do my life's work.

Today, I invite you to experience "THE MUSIC OF YOUR SOUL™" personalized CD. This is a personal and intimate reconnection and recollection of all the Divine aspects of your Being. When you are open to this process, the results are usually dramatic. Your own musical journey will embrace you at the deepest level of your Soul, traveling through every level of your Being and reaching to a cellular level, and your Heart will shine with unlimited sparkles of the Light of who you are, and you will feel complete once again.

Your music is recorded on a CD that is personalized with your birth name and lasts approx 40-45 minutes for an individual and approx. 50-55 minutes for a couple or a business such as a Spa.

May God continue to Bless You!

FREDERIC DELARUE

Frederic Delarue is an International Composer of soothing music that emanates from his heart, and is also an inspirational Author and Speaker. Frederic is featured on the benefit album, *Cousteau's Dream*, alongside Yanni, Kenny G, Kitaro, and Vangelis, among many others. Born in Chartres, France, he received his God given gifts after a Near Death Experience at the age of 12. His music touches, empowers your heart and soul, and helps you to surrender to the highest inspirations.

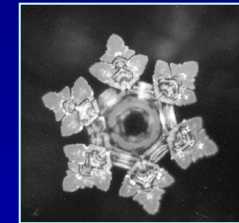

Frederic received his most awakening lessons from perceiving three tragic incidents, 2 car accidents & 1 medical error, as three blessings in disguise. He knows from living them that miracles can occur in an instant when you surrender unconditionally.

"The music comes through me naturally, effortlessly and often in real-time. Once a CD is created, in 1 to 5 days at the most, I need to listen to it several times to be able to play the songs again" says Frederic.

Thank you for your loving and continuous support.

With much Love & Gratitude,

Frederic Delarue.

This is a photograph of a crystal taken by Dr. Emoto's staff after exposing Frederic Delarue's music to samples of water.

It shows you what you breathe in and give to your body when listening to Delarue's music.

Be gentle with yourself. Listen to Classical or Soothing music, and use words and thoughts of unconditional love.

Be humble to ask for the help of the Angels, to forgive yourself and anyone involved in any event of your life.
